

Ruslan Bielian

Painter. Ukraine, Kyiv. Was born in 1978.

I graduated from art school in the city Bila Tserkva.

In 2000, I graduated from the Dragomanov National Pedagogical University with a degree in the humanities.

I took up photography.

I have always loved to painting. In my youth I played in a rock band. Since 2017, I has been seriously engaged in fine arts.

I exhibited works in the Art Gallery "Wunjo-Art", the gallery "House of Pictures" and in art-bar "Would you like".

Because of the war in Ukraine, now I live in Portugal with my family.

In Portugal, my paintings were exhibited in the Centro de Artes e Espectáculos, Magenta gallery, Gallery of Victor Costa, etc.

I perceive painting as a means of interaction with the world, as a method of admiring it. Through painting, I feel how the space around is being created, how beautiful and complex everything in our being is arranged.
