

OLENA KRAVCHENKO

Lisbon, Portugal

Biography

I was born in Ukraine and all my life I lived there. I have been doing some art since my childhood, but my life had other plans and I should go another way. After the second war in my life started, my husband and I decided to move to Portugal. And I had only one way to start my new life again- art. I started 2 new projects in Lisbon: Textured art and acrylic painting on leather bags made in Ukraine to help people there, giving money from selling.

Art is my passion! I waited 27 years to have the opportunity to make art. And now I am happy.

I would like to tell everybody that we should do what we love, what we can do the best, and never give up.
